Dec. 31. As the Expenses of my family during the greater part of the time since my removal from Boston have considerably exceeded my annual income (being upwards of $2500. – in the last twenty years) – And as the children of my second wife, Charlotte, have from the circumstance of their younger age & childhood rec.d their full proportional share of such excess, in their education &c – I consider it just and equitable that the property which came to my hands through my said second wife should contribute a share at least towards supplying this deficiency – the above sum of $600 – is accordingly transferred to Profit & Loss acct. – and the above account so far balanced.

Such portion of the Estate entered as Mrs. P's Portion (in my Books) as I intend shall go to her children above named I have bequeathed specially to them in my will – C. P. P. – See page 139
